Bus Stop Locations

STSYR003

Revised: Jan. 2013

Student Transportation Services of York Region (STSYR) creates bus stops at safe, centralized locations. Students are required to walk a short distance to and from the centralized stop locations. Having students walk to central locations increases routing efficiency and reduces the amount of time students spend travelling on a school bus.

STSYR shall determine bus stop locations within the Transportation Zone for each school. Schools Transportation Zones are areas designated by Board Policy as eligible for school vehicle transportation. Bus stop locations will be placed at street corners wherever possible on main roads and avoid residential crescents and courts.

A student's home or caregiver's address may be used to establish bus stops, however, both addresses must be within the school boundary, within the school Transportation Zone and used consistently.

Students require approval from School Administration to use a bus stop other than the one they are assigned. Approval should be granted only in emergency circumstances. School Administration shall be responsible for establishing procedures and parameters for accommodating such requests.
