<u>Transportation of Objects or Equipment on School Buses</u>	STSYR009 Revised: Jan. 2013
--	---------------------------------------

Student Transportation Services allows certain objects and equipment to be transported on a school bus under the following conditions.

1. Items do not block the aisles or emergency exits.
2. Items are stored on a student's lap or under seats where possible.
3. Items that do not fit on a student's lap or under a seat must be secured in such a manner that they cannot move when the school bus accelerates or brakes.
4. Ice skates may be transported if they are carried in a small sports bag.
5. Animals will not be permitted on school buses unless the YCDSB or YRDSB approves for use to assist a student with special needs.

In cases where there are questions concerning the safe transportation of an item, consultation between the Bus Company, School Administration and STSYR will occur to review the situation and attempt to achieve a resolution that doesn't compromise student safety.
